Name of Licensee: D & W Geotech/Testing, Inc.

Name of Participant(s): Dennis Dunnington & Sattar Lodhi

Telephone No. 540 720 9004

Subject: Training of RSO & Users

(NOTE: This will be used as the Documents Title in ADAMS)

Summary: This action was reviewed & completed by Jenny, but the license was not issued until a pre-licensing visit. Dick Ladun did the pre-licensing visit. I noted that the training certificate of the proposed RSO was dated 9/6/95. Dick verified that the individual had not received any HAZMAT refresher training since (at least the applicant had no record). Dick stated that the applicant had told him that the individual is scheduled to get the training in the next few weeks. The applicant was in a hurry to get license so that they could acquire the gauges.

I called Dennis to remind him that they have stated that the proposed RSO will have received training before acquiring licensed material. He stated that he needed the license and that his RSO is scheduled to receive the training in the next few weeks. I explained to him that obtaining licensed material prior to his completing the required training will be a violation of NRC requirements.

He (grudgingly) stated that he will have his RSO/AU complete the training prior to his obtaining the gauges. I also requested that he fax to us a copy of his driver's license.
