Dear Mr. Vouglitois:

RE: Water Use Registration No. 11108W

Enclosed is a Water Use Registration issued pursuant to N.J.S.A. 58:1A et seq. This document is for the registration of 2 wells in Lacey Township, Ocean County, New Jersey and provides valuable data on water use which assists the Bureau in effectively managing the State's water resources. Under this registration the diversion from all sources may not exceed 100,000 gallons per day (gpd) collectively. The diversion of more than 100,000 gpd requires a Water Allocation Permit.

Please review the enclosed Water Use Registration to ensure its accuracy and your understanding of the conditions contained therein. If any of the information contained in this registration is incomplete or incorrect please notify the Bureau in writing so your file can be updated.

If you have any questions, please contact me at (609) 292-2957.

Sincerely,

Robert Hudgins
Bureau of Water Allocation

Dear Ms. Myers:

Subject: WATER USE REGISTRATION NUMBER 11108W
OYSTER CREEK GENERATING STATION
MODIFICATION TO EXISTING WATER ALLOCATION PERMIT NO. 2164P

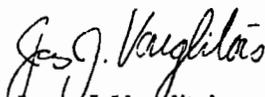

In accordance with your recent conversations with Mr. Malcolm Browne of our Radwaste/Environmental Department, AmerGen Energy Company submits the enclosed completed Water Use Registration Application and Water Use Registration Metering Form in order to register the following two domestic water wells located at the Oyster Creek Generating Station: Well Permit Number 3301095 and Well Permit Number 3323652. Please note that the present and anticipated water use from these two wells combined is less than three million gallons per month. You indicated to Mr. Browne that new Water Use Registration Number 11108W would be assigned for the subject wells.

Please note that Water Allocation Permit Number 2164P currently includes the two wells referenced above, as well as other wells owned by the permit holder, GPU. That Water Allocation Permit must be modified to remove the wells that are now owned by AmerGen Energy Company (Well Permit Numbers 3301095 and 3323652) and covered by Water Use Registration Number 11108W.

Thank you for your assistance, as well as the assistance of Mr. Jay Patel, in addressing these matters.

If you have any questions or require additional information, please contact Mr. Browne at (609) 971-4124.

Very truly yours,

James J. Vouglitois

WATER USE REGISTRATION APPLICATION

The Water Use Registration Form is to be used for registering diversion source(s) with a pump capacity of 70 gallons per minute or more where less than 100,000 gallons of water per day (gpd) will be pumped. (If more than 100,000 gpd will be pumped, a Water Allocation Permit must be applied for. Contact the Bureau of Water Allocation to obtain the proper form for applying for a Water Allocation Permit.)

Upon our receipt of this completed form, a Registration Number will be assigned. You will be required to report, on an annual basis, the monthly quantity of water that is diverted. Pursuant to N.J.A.C. 7:19-2.18, all diversion sources must be metered within 60 days of registration.
