Subject: request for exemption from 30.36

(NOTE: This will be used as the Documents Title in ADAMS)

Summary:

I had left a message for Mr. Rose last week, asking him to call and discuss their request for exemption from 30.36/40.42/70.38.

According to him, they requested this exemption because they wanted to have a license term of 10 years, not 5 years. I explained that 30.36 etc regulations were requirements for decommissioning, and had nothing to do with the length of issuance of the license. I also explained to him that the term of all licenses, with some very few exceptions, is now 10 years and has been since the mid-1990's.

He stated that they will not need an exemption from those regs, in that case. I told him we would be sending a request for additional information, probably some time next week after Dennis returns. I said we would address this request for an exemption, but differently now that I know what they really thought they needed.
