On August 14, 2007, a closed meeting was held between the U.S. Nuclear Regulatory Commission (NRC) and representatives of Nuclear Management Company, LLC (NMC) at NRC Headquarters, Two White Flint North, 11545 Rockville Pike, Rockville, Maryland. The purpose of the meeting was to discuss potential changes to Prairie Island Nuclear Generating Plant (PINGP), Units 1 and 2 Security Plans. A list of attendees is provided as Enclosure 1. This meeting was closed to the public due to the discussion of safeguards and sensitive security information.

The licensee's presentation was based on a potential future change to PINGP's security characteristics that will require a change to the Security Plans. The NMC staff also discussed with the NRC staff the time line for the change, and the regulatory process that NMC would pursue to notify the NRC. The NRC staff discussed the general review and approval process at the agency and discussed their concerns on the presented materials. The NMC staff agreed to periodically update the NRC staff throughout project's life cycle.
