SUMMARY

In the telephone conversation with Mr. McCormick on this date, he confirmed that the close-out survey of the facility located at G-3286 Beecher Road, Flint, Michigan, that he performed and submitted with letter dated August 9, 2007, was indeed performed after the transfer on July 16, 2007, of all radioactive material from that facility to the licensee's new facility located at 4455 Town Center Parkway, Flint, Michigan. He further explained that the reason cabinetry/equipment was not included in this survey was because those items were transferred to the new facility, leaving basically a bare room.
