**Subject:** money stolen

on August 16th, during my normal work hours of 8am to 5pm, someone entered my office, opened my file drawer and got into my purse. They stole approximately \$150 cash, as well as 40 Euros (has a value of about \$55). They only took cash. They did not steal my phone or credit cards. I discovered this about 6pm. I found my purse, outside my knapsack with all the zipper compartments open, and all my cash removed. I was gone from my desk 2 extended times today. One was from 11:30 to 12:30, and the other was 1:30 to 3:00.
