(4)

Secretary
U.S. Nuclear Regulatory Commission

I am writing in support of the Petition for Rulemaking PRM-50-85. I strongly agree with Eric Epstein and the Three Mile Island Alert, Inc. position that the NRC needs to amend regulations for emergency preparedness with regard to school chidren. The petition asks that host schools pick-up centers be at least 5-10 miles outside the radiation plume exposure boundary zone. I feel that this is a more than fair petition. It would certainly be a responsible change which would demonstrate concern for the safety and well-being of children.

I believe this change could only result with positive feedback from parents and teachers. Please amend your regulations as presented in PRM-50-85.

Thank you, Diane L. Little (Parent & Teacher)
