The Honorable Rick Boucher
Chairman, Subcommittee on Energy and Air Quality
Committee on Energy and Commerce
United States House of Representatives

Dear Mr. Chairman:

The U.S. Nuclear Regulatory Commission (NRC) intends to publish a final rule in the *Federal Register* that will amend Part 20 of Title 10 of the Code of Federal Regulations. The final rule will revise the compliance dates for licensees to begin reporting source transactions and the initial source inventories to the National Source Tracking System. This change is necessary because development of the National Source Tracking System has been delayed and the system will not be operational by the original November 2007 dates.

Sincerely,

/RA/

Rebecca L. Schmidt, Director
Office of Congressional Affairs
