RE: Amendment Request to USNRC Radioactive Materials License No. 45-25395-01 (Docket or Ref. No. 030-34470)

Dear Sirs:

Carilion Clinic (CC) is requesting amending our Radioactive Material License No. 45-25395-01 in the following manner:

- Revision to current license condition Number 12 – Licensed material is only authorized for use by or under the supervision of – to include the following individual.**

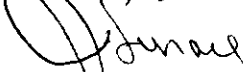

Authorized User	Material & Use	Training & Experience
John W. Rogers, M.D.	By-product material listed under 10 CFR 35.400 & 10 CFR 35.600 for remote afterloading devices; Iridium-192 for uses in a High Dose Rate Remote Afterloader Unit	Refer to attached copy of USNRC License No. 45-21206-01. Certified in Radiation Oncology by American Board of Radiology in June, 2006

We feel that Dr. Rogers fits the criteria of an experienced AU as defined in 10 CFR 35.57(b) for the above noted medical use of certain radioactive material.

The following AU should be deleted from this license, since he no longer works for the licensee: Jackson W. Kiser, M.D.

We remain available to provide additional and clarifying information and appreciate your prompt attention to this amendment request. Your contact person(s) for this matter is Jeffrey Messinger, SO. He can be contacted at (540)981-7379 or via e-mail at rojgm1@carilion.com.

Respectfully submitted;

  
Joseph L. Surace, Director  
Department of Physics  
Administration Representative for CC
