Gentlemen:

Based on information contained in your letter dated July 26, 1985, and pursuant to §170.11(b)(1) of 10 CFR 170, the Commission hereby grants an exemption from fees in fee Category 3N for License 06-00183-03, having determined that such an exemption is authorized by law and is otherwise in the public's interest. This exemption from fees relates to your request to amend the subject license to authorize calibration of instruments for other licensees. Since the calibrations will be performed as a professional courtesy to institutions and individuals associated with Yale University, and since no direct fee will be charged for the calibrations, we believe it to be in the public's interest to grant this exemption.

Your amendment request has been forwarded to the Licensing staff for processing.

Sincerely,

Original Signed by
Wm. O. Miller
