Subject: Question: Contacting AREVA

The letter from AREVA regarding the proposed centrifuge plant raises a number of questions that we would like to discuss with them (see attached). Depending upon the answers to certain questions (in particular, the ones on classification guide, international agreement, and facility clearance), we may need to start certain actions now to ensure that AREVA can meet their schedule. We have heard that AREVA has scheduled a drop in with the Chairman for May 12. Is it ok with you if we go ahead and contact AREVA and discuss these questions?
