Dear Mr. DeLaBarre:

Enclosed is an application for a license (XSNM3509), recently received by the U.S. Nuclear Regulatory Commission, from Mitsui & Co., Inc., for the export of low-enriched uranium (LEU) to Japan for use as reload fuel in the Shimane Unit 1 nuclear power reactor.

Assurances from Japan, that the material will be subject to all of the terms and conditions of an agreement for cooperation, are required. Your assistance in obtaining the necessary assurances will be appreciated.

Please note that the material is of French and South African origin, converted in France and the U.S., enriched in Japan and the U.S., and re-converted in the U.S. It, thus, has EURATOM and possibly Japanese obligations.

Sincerely,

/RA/
