Document\_Title: FY 2007-2012 Draft Strategic Plan

Comments: Page 7- Sentence beginning "Certain States..." Rather than "comparable" it should be "compatible" programs.

Page 8 - "The major programs include rulemaking, licensing, oversight and incident response, including key activities such as the Agreement States program, and ongoing research programs."

This sentence is confusing because it use the phrase major programs and then programs as key activities. As written it implies that the agreement state program and the research program are key activities of the rulemaking, oversight and incident response programs. While each may be a key activity of a couple of them the two are not key activities of all of them.

Page 9 - "Use information from integrated safety analyses implementing..." Shouldn't it be "to implement"?

Page 10 - "Develop consensus standards with ... to be used by nuclear industry and international organizations to incorporate improvements ... NRC regulations." Shouldn't it be "and to incorporate" otherwise it reads as if the nuclear industry and international organizations are going to improve NRC regulations.

Page 10 - Rather than the NRC "maintains" the security of sources it should be the NRC "ensures" - licensees actually maintain the security.

Page 11- Does the NRC actually formulate foreign policy guidance? Contribute, advise, comment or review may be more appropriate.
