Gentlemen:

On January 7, 1993, you were informed that you would be notified of NRC's decision regarding your November 16, 1992, exemption request upon completion of the Commission's review.

The Commission has completed its review of your request for an exemption from the fee requirements of 10 CFR 170 for the review of certain technical reports relating to the license renewal initiative. In order to provide consistent fee treatment with other applicants who are assessed fees for topical report reviews and because the B&WOG would be the primary beneficiary of the topical report reviews and approvals, your request for an exemption is denied.

Sincerely, **Original signed by**
James H. Sniezek
