Summary: This record represents a series of e-mail and telephone communications.

I informed Sandy and Dave that insufficient information was submitted to authorize Dr. Kang for HDR. The information about supervised work and clinical experience at Duke was incomplete, for example did not include hours of training, the Duke license number, or confirmation that the supervisor is an HDR AU on the Duke license. As an alternative, they may submit the following: a description of the HDR training Dr. Kang has received at Careplex since April 2007 (including any vendor training certificates), description of didactic training in device operation/safety procedures/clinical use, description of observed/supervised HDR caseload. Dr. Miller may sign off on this information.

Sandy then faxed copies of 2 letters from the Duke University supervisor, dated February 14 and March 15, 2007, and asked if these were sufficient. I informed her they did not provide sufficient details of HDR training or confirmation that the supervisor is an HDR AU on the Duke license.

Sandy said the licensee will provide some combination of additional information from Duke and additional information about HDR training at Careplex.

Action Required: Await response from licensee.
