<<RE: Elassoma okatie on Savannah Floodplain>> <<FW: Elassoma okatie on Savannah Floodplain>> <<BBPS>>

Mark:

Please find attached e-mails from Georgia DNR regarding our and their evaluation of the potential for the Bluebarred Sunfish (elassoma okatie) to be present in waters on the Vogtle site. As you can see, DNR believes as SNC does that it is very unlikely that this fish occurs on the Vogtle site.

By the way, DNR was very complimentary of SNC's effort to look for this fish and the support we provided for locating potential areas where it may be present.
