Thank you for your response of February 21, 1986, to our Notice of Violation issued on January 17, 1986, concerning activities conducted at your Watts Bar facility. We have evaluated your response and found that it meets the requirements of 10 CFR 2.201. Based on the additional information provided in your response, the cited violation is now considered to be of lesser safety significance, and therefore warrants a Severity Level V. Accordingly, our records have been changed to reflect this. We will examine the implementation of your corrective actions during future inspections.

We appreciate your cooperation in this matter.

Sincerely,
