Chattanooga, Tennessee 37401

Gentlemen:

Thank you for your letter of January 16, 1979, informing us of the steps you have taken with respect to the items of noncompliance concerning activities under NRC Construction Permit Nos. CPPR-91 and CPPR-92 brought to your attention in our letter of December 22, 1978. Three item numbers were addressed in that correspondence. We have no further questions at this time with regard to two of the three, item numbers 390/78-31-01 and 391/78-26-01. Your corrective actions and plans with regard to these will be examined in a subsequent inspection. The remaining item 390/78-31-02, will require a supplemental response.

A telephone discussion was held between L. Northard of your staff and E. Girard of this office on January 30, 1979, regarding the additional information to be provided for item 390/78-31-02.

It is our understanding that the supplemental response will be provided to this office by February 23, 1979.

Sincerely,

Charles E. Murphy, Chief  
Reactor Construction and Engineering  
Support Branch
