Gentlemen:

In the Matter of the Application of)
Tennessee Valley Authority) Docket Nos. 50-390
50-391

WATTS BAR NUCLEAR PLANT (WBN) - NRC INSPECTION REPORT NOS. 50-390/88-01 AND
391/88-01 - SUPPLEMENTAL RESPONSE TO NOTICE OF VIOLATION 390, 391/88-01-02 -
CABLE TRAY INSTALLATION

TVA's August 23, 1988 letter in response to NRC's Notice of Violation dated
April 29, 1988, committed to provide an updated report by November 7, 1989,
after the corrective action program (CAP) plan for cable tray and cable tray
support deficiencies had been reviewed by the Watts Bar Program Team and
submitted to NRC.

The CAP plan for cable trays and cable tray supports was submitted to NRC on
November 18, 1988. The plan provides additional details of the corrective
actions for the subject violation, as well as other related deficiencies. The
CAP plan satisfied the commitment to provide an updated report; therefore, no
further response is necessary.

No new commitments are made by this submittal.

If there are any questions, please telephone G. R. Ashley at (615) 365-8527.

Very truly yours,

TENNESSEE VALLEY AUTHORITY

Mark O. Medford, Vice President
