Gentlemen:

SUBJECT: NRC INSPECTION REPORT NOS. 50-390/94-27 AND 50-391/94-27

This refers to the NRC inspection conducted by Ron Gibbs of this office on March 14-25, 1994. The inspection included a review of activities authorized for your Watts Bar facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The enclosed inspection report documents the NRC review of the Q-List Corrective Action Program implementation at the 100% completion phase. Based on this inspection and the previous inspection conducted at the 75% completion point, we have concluded that the Q-List Corrective Action Program has been implemented as stated in the Watts Bar Nuclear Performance Plan, Volume IV. This Corrective Action Program is closed.

Within the scope of the inspection, no violations or deviations were identified.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter, its enclosure, and any reply will be placed in the NRC Public Document Room.
