Docket Nos. 50-390 and 50-391  
License Nos. CPPR-91 and CPPR-92

Tennessee Valley Authority  
ATTN: Mr. S. A. White  
Manager of Nuclear Power  
6N 38A Lookout Place  
1101 Market Street  
Chattanooga, TN. 37402-2801

Gentlemen:

SUBJECT: NOTICE OF VIOLATION  
(INSPECTION REPORT NOS. 50-390/87-07 AND 50-391/87-07)

This refers to the Nuclear Regulatory Commission (NRC) inspection conducted by Mr. G. A. Walton on April 30, 1987 to May 10, 1987. The inspection included a review of activities authorized for your Watts Bar facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations of activities in progress. The areas inspected included licensee action on previous enforcement items, testing of pipe supports and restraint systems, safety-related Heating, Ventilating and Air Conditioning (HVAC) systems and the TVA Employee Concerns Special Program.

The inspection findings indicate that certain activities appeared to violate NRC requirements. The violation, references to pertinent requirements, and elements to be included in your response are described in the enclosed Notice of Violation. The violation involves failure to comply with requirements specified by a drawing.

An unresolved item dealing with missing calculations is identified in the inspection report and will be pursued during future inspections.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

The responses directed by this letter and its enclosure are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
