Gentlemen:

SUBJECT: REPORT NOS. 50-390/87-07 AND 50-391/87-07

Thank you for your supplemental response of April 5, 1988, to our Notice of Violation issued June 5, 1987, concerning activities conducted at your Watts Bar facility. Your corrective actions to date appear to be appropriate. We understand that, due to the number of supports that failed to meet the inspection acceptance criteria, the Nuclear Construction Issues Group (NCIG) sampling plan NCIG-02 requires an engineering evaluation of the discrepancies that failed to meet the inspection acceptance criteria. We will review your final report on this issue when received.

We appreciate your cooperation in this matter.

Sincerely,
