Washington, D.C. 20555

Gentlemen:

In the Matter of the Application of ) Docket Nos. 50-390  
Tennessee Valley Authority ) 50-391

WATTS BAR NUCLEAR PLANT (WBN) UNITS 1 AND 2 - REGION II INSPECTION  
REPORT NOS. 50-390/86-20 AND 50-391/86-20 - REVISED NOTICE OF VIOLATION  
RESPONSE

In TVA's letter to NRC dated April 5, 1988, TVA provided updated information and the final action plan on the corporate concerns related to the subject violation. Enclosure 2 of that letter contained a summary of commitments that would resolve this violation. TVA has completed all but the last of these commitments. This commitment was "The sites will ensure full compliance with the revised NQAM requirements by May 28, 1988."

By telephone conversation between Les Ginn, TVA, and Steve Elrod, NRC-Region II, on May 27, 1988, NRC was informed of the delay in meeting that commitment date. The enclosure contains the new dates or status for this commitment for each site.

If there are any questions, please telephone R. H. Shell at (615) 751-8099.

Very truly yours,

TENNESSEE VALLEY AUTHORITY

  
R. Grudley, Director  
Nuclear Licensing and  
Regulatory Affairs

ENCLOSURE

<u>Site</u>	<u>Date When In Compliance With Revised NQAM Requirements</u>
Watts Bar Nuclear Plant	May 28, 1988
Sequoyah Nuclear Plant	July 1, 1988
Bellefonte Nuclear Plant	See note below
Browns Ferry Nuclear Plant	July 1, 1988

NOTE: Bellefonte site instructions were revised by May 28, 1988, to implement the new NQAM requirements except for incorporation into the preoperational test program (BLA7.4) which is presently on hold. Implementation of the NQAM revisions in this area is being deferred and tracked and will be completed before resumption of preoperational testing.
