Gentlemen:

SUBJECT: MEETING SUMMARY - INSPECTION REPORT NO. 50-390/85-39

This refers to the enforcement conference held at our request with members of your staff at this office on May 15, 1985. This meeting related to activities authorized by NRC Construction Permit No. CPPR-91 for the Watts Bar facility. The subject discussed is detailed in the enclosed inspection report.

Our concerns about inaccurate statements made in control room design status reports and the effectiveness of your management controls were expressed to your staff at the meeting. Your positive response to our concerns is appreciated.

It is our opinion that this meeting was beneficial and has provided a better understanding of inspection findings and enforcement issues. In accordance with Section 2.790 of NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and its enclosure will be placed in the NRC's Public Document Room.

Should you have any questions concerning this matter, we will be pleased to discuss them.

Sincerely,

J. Nelson Grace
Regional Administrator
