ASLBP No. 89-594-01-ML

MEMORANDUM AND ORDER
(Limited Appearances; Prehearing Conference)

I. Limited Appearances

Pursuant to 10 CFR § 2.1211, I will conduct a limited appearance session, at a site somewhere in the vicinity of the Santa Susana Field Laboratory, beginning at 7:00 pm local time on Thursday evening, September 28, 1989. People wishing to speak at that session may obtain speaking priority by notifying me in person c/o U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, by letter mailed on or before September 21, 1989.

Limited appearances may be in writing or oral; they are not considered to be a part of the decisional record and may not therefore form a basis for my opinion in this case.

Should they contain material germane to the issues of this case, methods will be sought to incorporate the germane material into the record.

I expect to limit the maximum time permitted for a limited appearance statement to from five to ten minutes, depending on how many people seek to appear. The time limit will be announced at the beginning of the session.

II. Prehearing Conference

At 9:30 am local time, Friday, September 29, 1989, at a place to be announced, I will conduct a prehearing conference for the purpose of hearing oral argument concerning the admission of parties to this case pursuant to 10 CFR § 1.205(d) and (g). Should I reach a preliminary determination that one or more parties shall be admitted, then the conference will be continued for the purpose of adopting a schedule for the filings in this proceeding. Prior to the time of this conference, I request that the Staff of the Commission inform me of its schedule for the preparation of safety and environmental documents and the level of its confidence that the schedule will be met.

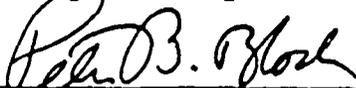

The requesters may take up to twenty minutes each to argue for their admissability as parties. They may reserve up to five minutes of their 20 minutes for rebuttal. Appli-

cants may take as many minutes to respond as are, in sum, allotted to all the requesters.

The requesters are encouraged to contact Ms. Colleen Woodhead (telephone: 301-492-1525) of the Staff of the Nuclear Regulatory Commission, should they seek assistance in interpreting the Application or supporting materials. We are grateful to the Staff for having offered to be of assistance in this proceeding.

Requesters are also encouraged to make direct requests for assistance to the Applicant.

Respectfully ORDERED,

Peter B. Bloch
Administrative Judge (Presiding Officer)
