In the Matter of	Docket 70-25
ROCKWELL INTERNATIONAL CORPORATION Rocketdyne Division	Request to Renew For Ten Years
(Special Material License Number SNM-21)	ASLBP No. 89-594-01-ML

MEMORANDUM AND ORDER
(Request for Information)

After reviewing the Application and reviewing the requests filed by Jon Scott and by Dr. Jerome Raskin and Dr. Estelle Lit et al., I have determined, pursuant to 10 CFR § 2.1233(a), that it is appropriate to request from Rockwell International Corporation chronologically arranged information about all significant[1] chemical and radiological contamination incidents or releases at Santa Susana Field Laboratory (with respect to activities pursuant to License SNM-21 or with respect to DOE activities conducted in Area IV or in close proximity to licensed activities) since 1969.

[1]That is, producing anything other than trivial results that are very unlikely to cause any detriment to anyone's health and are also very unlikely to cause noticeable loss to the environment.

With respect to each incident or series of incidents[2], please clearly describe:

1. The date(s).
2. Substance(s) and amount(s) released.
3. Root cause(s) (including citations to reports or studies or reports of off-normal occurrences, if any)[3]
4. Remedial actions **concerning the root causes** (including the dates of the remedial actions), if any. (I do not need a description of the clean-up or "remediating" actions.)

I would appreciate reasonably prompt filing of this information. Be clear and concise, using figures or charts whenever helpful. References may be made to materials already in the hearing file. Answers should be in writing, under oath or affirmation. Please file the information on or before the Prehearing Conference, September 29, or file a schedule for the subsequent filing of this information.

Respectfully ORDERED,

Peter B. Bloch
Administrative Judge

[2]Incidents are part of a series if they have the identical root cause or have been caused by a continuing practice or set of practices.

[3]All relevant portions of cited materials, including contextual material necessary for an understanding of the relevant portion, should be filed with the Presiding Officer. Also, if there should have been a report of an off-normal occurrence but none was prepared an explanation of the failure to prepare and retain such a report should be provided.

Docket Nos. 50-443, 50-444 Off-Site Emergency Planning -OL

Dear Administrative Judges:

It has come to our attention that certain transcript citations provided at pages 36-37 of the "NRC Staff's Supplemental Proposed Findings of Fact and Conclusions of Law With Respect to SPMC and Exercise Contentions," filed on August 31, 1989, require correction.

Enclosed are corrected pages to replace pages 36-37 of the Staff's supplemental findings, on which all incorrect citations are lined out [- - - -] and corrected citations are underlined, for ease of reference.

I regret any inconvenience which may have been caused in this regard.

Sincerely,

Sherwin E. Turk
Counsel for NRC Staff
