RE: Scaled Source Temporary Storage:  
From: Dr. Dinesh Bhatt

Sept. 6, 2007

Scaled sources that have been used and stored at Southeastern Imaging of Martinsville, are now being stored on a temporary basis for Dr. Bhatt here at Carilion Cardiology Associates of Martinsville.

As directed by my physicist I have registered them into our sealed sources inventory and have done the appropriate leak testing.

Dr. Bhatt having been in contact with the NRC as to the relocation of the mobile imaging coach has requested us to store these sources for a period of 30 days until they are relocated to the new coach site.
