Subject: New License  
(NOTE: This will be used as the Documents Title in ADAMS)

Summary: During my conversation with Dr. Bhatt, he informed me of several things:

1. He will no longer have a facility in the state of Virginia. His lease has expired.
2. He plans to transport his Mobile van to Mississippi, where his brother Nayan K. Bhatt has acquired a facility and is in the process of applying for a material license with the state of Mississippi.
3. He has several check sources (activity unknown) and a flood source the he plans to transport to Mississippi within the van.
4. The address where the mobile van will be located is:  
1021 Greentree Lane  
Summit, MS 39666  
601-248-0317 cell  
601-276-2104 fax

I informed Dr. Bhatt that since he will no longer have a facility within a state regulated by the NRC, his application for a new license will have to be voided, he will have to contact the state of Mississippi for a material license, and he should contact the Department of Transportation to insure that DOT regulations are met for transporting radioactive material.
