- (2) The amount presently obligated with respect to this order is **\$442,000**. B.2 BRIEF DESCRIPTION OF WORK (MAR 1987)

Microsoft Phase 2 Document conversion, Creation of Macro's and Templates.

B.3 DURATION OF CONTRACT PERIOD (MAR 1987) ALTERNATE 2 (MAR 1987)

This contract shall commence on August 3, 2007 and will expire on April 3, 2008.

B.4 STATEMENT OF WORK**B.4.1 Background**

The Nuclear Regulatory Commission (NRC), Office of Information Services (OIS) has recently deployed the Microsoft (MS) Office Professional Suite 2003 to all agency desktops. The next phase in the process is the conversion and comparison for accuracy of existing agency documents needed for ongoing agency business. Also, there is a requirement for the modification and/or development of agency-supported macros and templates for agency correspondence in MS Word. This is in support of meeting the Agency goal of declaring MS Word the Agency Standard word processor in August 2007. Currently NRC has requested each Office to identify the number of documents that will need to be converted.

B.4.2 Objectives

In support of this requirement, the Contractor shall provide a proposal detailing the cost for providing services and support to complete this task. The NRC estimates that the number of documents to be converted is a minimum 5,000 through a maximum of 15,000.

The NRC has completed a "document inventory" assessment of the current document types, letterhead formats, macros and word processing environments. The Contractor shall provide initial project planning and migration strategy service that will include:

1. An analysis of agency documents to be converted using a document matrix as the basis of the anticipated work volume. (The listing of documents for review will be provided by the NRC.)
2. A conversion schedule.
3. Recommend methods and media as to which all documents will be submitted to the contractor and the methods and media the converted documents will be returned to NRC.
