Charles Hardigree, Business Manager
L.U. 150 Plumbers and Steamfitters
1211 Telfair St.
Augusta, GA 30901-2190

Dear Mr. Hardigree:

This letter serves two purposes: first, to thank you for your help in defining the wages for skilled crafts in the Augusta, Georgia area. That information was helpful in estimating the impact of construction on the local economy if and when Southern Nuclear Company receives approval to construct new reactors at the Vogtle Nuclear Power Plant site. The draft environmental impact statement (DEIS) from the NRC for Southern's Early Site Permit (ESP) will be available in September 2007 and you can find your input documented there.

The second purpose of this letter is to establish documentation for our public record for that set of telephone conversations. As you recall, Mr. Daniel Mussatti called you on Monday, July 9 to get an accurate estimate for the annual wage for skilled craft workers. You called Mr. Daniel Mussatti back the next day and left a message that he was correct, the Southern estimate for skilled craft wages was too low (possibly for a laborer, where the wage and benefit packages are both lower than for skilled workers). You recommended the NRC staff use a wage of $22 per hour, with a $10 benefits package added on. Therefore, for a full year (2000 hours) we would expect the actual skilled craft wage to be close to $64,000 per year. That is the wage the staff used in our DEIS.

Again, thank you for your help, both over the phone and when Ms. Katie Cort and Mr. Daniel Mussatti came to see you last fall. We will be in the area again when the NRC hosts a public meeting for the DEIS in October. If you have any questions please contact the NRC Economist, Mr. Daniel Mussatti, at 301-415-2934 or by e-mail at DCM2@nrc.gov.

Sincerely,

/RA/

Mark D. Notich, Environmental Project Manager
Division of Site and Environmental Review
Office of New Reactors
