Dear Mr. O'Reilly:

WATTS BAR NUCLEAR PLANT UNITS 1 AND 2 - NRC-OIE REGION II INSPECTION
REPORT 50-390/81-03 AND 50-391/81-03 - SUPPLEMENTAL INFORMATION

The subject inspection report dated March 14, 1981 cited TVA for violation of NRC requirements. In our September 30, 1981 submittal regarding violaton 390/81-03-07, TVA stated that the preoperational staff procedure manual would be implemented by June 1982.

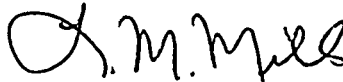

However, as discussed with Inspector J. D. Wilcox on June 30, 1982 the preoperational test manual has been prepared and is in the approval cycle. We now expect to have the manual implemented by August 1, 1982.

If you have any questions, please get in touch with R. H. Shell at FTS 858-2688.

To the best of my knowledge, I declare the statements contained herein are complete and true.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
