ATTN: Mr. D. A. Nauman  
Senior Vice President,  
Nuclear Power  
6N 38A Lookout Place  
1101 Market Street  
Chattanooga, TN 37402-2801

Gentlemen:

SUBJECT: REPORT NOS. 50-390/91-03 AND 50-391/91-03

Thank you for your response of May 15, 1991, to our Notice of Violation, issued on April 15, 1991 concerning activities conducted at your Watts Bar facility.

We have evaluated your response and found that it meets the requirements of 10 CFR 2.201.

As stated in the TVA response, TVA denies the portion of Example 2 that states "Additionally, a pen and ink change to workplan FY000A-Z on February 1, 1989, improperly revised the engineering requirement of drawing 47A100-2-0 to make it optional to cover cable stored indoors."

The NRC agrees with TVA that an Engineering document did exist allowing this change to be made by the field engineer. At the completion of the inspection, the inspector was unaware this requirement existed in any engineering document. Therefore, NRC withdraws this portion of the cited violation.

We will examine the implementation of your corrective actions during future inspections. We appreciate your cooperation in this matter.

Sincerely,

*Original Signed By*  
**BRUCE A. WILSON**
