Chattanooga, TN 37402-2801

SUBJECT: NRC INSPECTION REPORT NO. 50-390/95-69 AND 50-391/95-69
AND NOTICE OF VIOLATION

Dear Mr. Kingsley:

This refers to the inspection conducted on September 25 - November 1, 1995. The inspection included a review of activities authorized for your Watts Bar facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The purpose of the inspection was to verify completion of corrective actions for the Conduit and Conduit Support and Cable Tray and Cable Tray Support Corrective Action Programs (CAPs). Based on the review documented in the enclosed Inspection Report and the referenced inspection activities, we concluded that the CAPs have been adequately implemented.

Based on the results of this inspection, certain of your activities appeared to be in violation of NRC requirements, as specified in the enclosed Notice of Violation (Notice). Although 10 CFR 2.201 requires you to submit to this office, within 30 days of your receipt of this Notice, a written statement of explanation, we note that you issued a letter dated November 1, 1995, detailing the facts relative to the Violation and the corrective actions taken. During our inspection, we inspected the corrective actions and found that the Violation has been corrected. Therefore, no response to this Notice is required.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be placed in the NRC Public Document Room.
