SUBJECT: NRC INSPECTION REPORT NO. 50-390/95-67 AND 50-391/95-67

Dear Mr. Kingsley:

This refers to the NRC inspection conducted on September 25 through October 13, 1995, at the Watts Bar facility. The purpose of the inspection was to determine whether activities authorized by the construction permit were conducted safely and in accordance with NRC requirements. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress. We have completed our inspection of your Vendor Information Corrective Action Program (CAP) and concluded that the issues which led to the CAP have been addressed and that the CAP has been adequately implemented.

Within the scope of the inspection, violations or deviations were not identified.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

Should you have any questions concerning this letter, please contact us.

Sincerely,
