SUBJECT: NRC INSPECTION REPORT NOS. 50-390/95-202  
NOTICE OF VIOLATION

Dear Mr. Kingsley:

NRC Inspection Report 50-390/95-202 was transmitted to you in a letter from Mr. R. Gallo, NRR/NRC to Mr. O. Kingsley, TVA, dated July 19, 1995. The inspection report contained eleven deficiencies.

Based on our review of the results of this inspection, six of the items identified as deficiencies in the report appear to represent a violation of NRC requirements, as specified in the enclosed Notice of Violation. The violation is of concern because it represents a failure of personnel to follow procedures consistently and serves to highlight weaknesses in the maintenance planning department.

The NRC has concluded that information regarding the reason for the violation, the corrective actions taken and planned to correct the violation and prevent recurrence have already been adequately addressed on the docket in your letter from Mr. R. Baron, dated August 16, 1995. Therefore, you are not required to respond to this letter unless the description therein does not accurately reflect your corrective actions or your position. In that case, or if you choose to provide additional information, you should follow the instructions specified in the enclosed Notice.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter, its enclosure, and your response of August 16, 1995, will be placed in the NRC Public Document Room (PDR).
