

October 27, 1995

Tennessee Valley Authority  
ATTN: Mr. Oliver D. Kingsley, Jr.  
President, TVA Nuclear and  
Chief Nuclear Officer  
6A Lookout Place  
1101 Market Street  
Chattanooga, TN 37402-2801

SUBJECT: NRC INSPECTION REPORT NO. 50-390/95-71

Dear Mr. Kingsley:

This refers to the NRC team inspection conducted on September 18 through September 29, 1995, at the Watts Bar facility. The purpose of the inspection was to determine the adequacy of your internal corrective action program and whether activities authorized by the construction permit were conducted safely and in accordance with NRC requirements. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed report.

Areas examined during the team inspection are limited to your corrective action program and followup items associated with your corrective action program. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

Based on the results of this inspection, we have determined that your corrective action program implementation meets NRC requirements.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter, its enclosure, and any reply will be placed in the NRC Public Document Room.

Sincerely,

Original signed by Johns P. Jaudon

Johns P. Jaudon, Deputy Director  
TVA Construction  
Division of Reactor Projects

**Results:**

The team found that the applicant has adequately implemented the Corrective Action Program at Watts Bar. An additional example of Violation 50-390/95-27-01, Inappropriate Use of Q-DCNs, was identified during this inspection that the applicant needs to address before closure of Violation 50-390/95-27-01 occurs.

During this inspection period, no violations or deviations were identified.
