FAX Phone: 630.515.1078 Phone: 630.830.9842 Location: Lisle, IL

Reference: Dr. Siddiqui's License

Hello Toye,

Attached please find information that we think will complete Dr. Siddiqui's application.

Please look this over and let me know if this works for you. I appreciate your understanding.

Thank you.

Sandra

P.S. As we discussed on the phone this morning, Option 1, getting another AU, is not feasible because doctors will view it as competition. Option 2, doing the camera installation without Cardiolite, is not feasible either since it will not enable the doctor to have patients in order to cover the cost of the camera.

Re: Control 316404

Dear Toye,

Enclosed please find the additional information you need for the successful completion of Dr. Siddiqui's license application.

Attachment 1 is a list of three references from the hospitals where Dr. Siddiqui obtained his recent experience.

Attachment 2 is the signed preceptor letter of Dr. David I. Drout, M.D. of the Physicians Imaging Center, attesting to his supervision of Dr. Siddiqui.

Additionally, please note that St. Alexis hospital was created in 2003 from the merger of South Pointe and Alexian Bros. Hospitals in St. Louis; hence, the license of St. Alexis hospital may not have been in NRC files between 1999 and 2003.

If you have any further questions, please contact Charles H. Rose, MA, MDSPH, D(ABSNM) at NCS, 303.541.0044 or fax 303.541.0066.

Sincerely,

Charles H. Rose, MA, MSPH, D(ABSNM)

To Whom It May Concern:

This letter is to affirm that Jawed Siddiqui, M.D. received training and experience at our institution, Physicians Imaging Center, in Imaging and Localization studies. The Preceptorship commenced on 9/5/06 through 9/8/06. Dr. Siddiqui returned to our facility on 6/11/07 through 6/15/07.

During this training program, Dr. Siddiqui received not less than 80 hours of supervised work experience, and not less than 80 hours of concurrent supervised clinical experience, under the supervision of an Authorized User.

The supervised work experience included ordering, receiving, and unpacking radioactive materials safely, performing related radiation surveys, calibrating dose calibrators and diagnostic instruments, performing checks for proper operation of survey meters, calculating and safely preparing patient dosages, using administrative controls to prevent the misadministration of byproduct material, using procedures to contain spilled byproduct material safely, and using proper decontamination procedures.

The supervised clinical experience included examining patients and reviewing case histories to determine their suitability for radioisotope diagnosis, and limitations or contraindications, selecting the suitable radiopharmaceuticals and calculating and measuring dosages, administering dosages to patients using syringe radiation shields, and collaborating with the Authorized User in the interpretation of radioisotope test results and patient follow-up.

Sincerely,

David I. Drout, M.D.
