Post Office Box 165, Mail Code: Zone 1  
New Hill, North Carolina 27562-0165

SUBJECT: SHEARON HARRIS NUCLEAR POWER PLANT, UNIT 1 – CORRECTION TO  
AMENDMENT PACKAGE ISSUED WITH AMENDMENT NO. 125 ON  
JULY 23, 2007 (TAC NO. MD3895)

Dear Mr. Duncan:

On July 23, 2007, the U.S. Nuclear Regulatory Commission (NRC) issued Amendment No. 125 to Facility Operating License No. NPF-63 for the Shearon Harris Nuclear Power Plant (HNP), Unit No. 1, in response to your request dated December 20, 2006.

This amendment revised the HNP Technical Specifications (TS) to change the administrative controls associated with worker access to high and very high radiation areas to be consistent with Section 20 of Title 10 to the *Code of Federal Regulations* and Regulatory Guide 8.38, "Control of Access To High and Very High Radiation Areas in Nuclear Power Plants," Revision 1. The changes included differentiating dose rates associated with high and very high radiation areas, adding requirements for groups entering high radiation areas, and clarifying the communication requirements for workers in high radiation areas.

A typographical error was found on the page designated as the "Attachment to License Amendment No. 125" in the initial amendment package. The error involved listing TS page 5-26 as needing to be removed, to be replaced with the revised pages, rather than TS page 6-26.

A corrected license amendment page is attached to replace the page initially issued. This change has also been reflected in the NRC's official record copy of this document. We regret any inconvenience this may have caused. If you have any questions regarding this matter, please call me at (301) 415-3178.

Sincerely,

/RA/

Marlayna Vaaler, Project Manager  
Plant Licensing Branch II-2  
Division of Operating Reactor Licensing  
Office of Nuclear Reactor Regulation

Docket No. 50-400
