Subject: Response to RCPD-07-004

This is the State of New Hampshire's response to RCPD concerning State Authority to Fingerprint.

At this time, we are still inquiring internally as to whether or not we would have this authority, for instance, through legally binding license conditions, but all indications so far review various state laws are that a statutory change to the radiation control law would be required. There is a possibility that the specific licensees currently subject to Increased Controls would carry this out voluntarily, and make such a commitment in writing, which of course, could be incorporated into their license.

Please contact us if you require additional information. Thank you.
