	During such periods of limited HEU processing, in Condition SG-5.1. Whenever the possession condition are not applicable, the Plan identified the SG-5.1 Plan shall be in full force.	the licensee need not follow the Plan identified and use limitations defined above in this herein shall be regarded as null and void, and

21 **U.S. NUCLEAR REGULATORY COMMISSION** NRC FORM 374A License Number SNM-124 MATERIALS LICENSE Docket or Reference Number SUPPLEMENTARY SHEET 70-143 Amendment 75 Section-6.0 -- PHYSICAL PROTECTION REQUIREMENTS FOR STRATEGIC SPECIAL NUCLEAR MATERIAL SG-6.1 The licensee shall follow the physical protection plan entitled "NFS Physical Protection Plan for Protection Of Category 1 High Enriched Uranium (Strategic Special Nuclear Material), Revision 4," (NFS letters dated January 27, February 28, March 31, July 27, and September 14, 2006) and as it may be further revised in accordance with the provisions of 10 CFR 70.32(e). The licensee shall follow the safeguards contingency plan titled "NFS Safeguards Contingency SG-6.2 Response Plan, Revision 1," dated March 31, 2006; and as may be further revised in accordance with the provisions of 10 CFR 70.32(g). SG-6.3 The licensee shall follow the guard training and gualification plan titled "NFS Site Security Training Plan, Revision 1," dated March 31, 2006; and as may be further revised in accordance with the provisions of 10 CFR 70.32(e), 1.4 1 Notwithstanding the above Safeguards License Conditions (SG-6.1, SG-6.2, SG-6.3), upon SG-6.4 possession of less than Category, levels, of special nuclear material, the licensee shall follow the measures described in the physical protection plans titled "Physical Security Plan for the Protection of Special Nuclear Material of Moderate Strategic Significance," Revision 5, dated June 23, 1994 (letter dated June 22, 1994), and Revision 6, dated February 6, 1996; and in the "Physical Security Plan for Special Nuclear Material of Low Strategic Significance," Revision 2, dated May 26, 2004; and as they may be further revised in accordance with the provisions of 10 CFR 70.32(e). Sec. 9 Phillipping TRANSPORTATION CONDITIONS Section-1.0 -- TRANSPORTATION SECURITY MEASURES: TR-1.1 The licensee shall follow the measures described in the physical security plan titled "Physical Security Plan for the Protection of Special Nuclear Material of Moderate Strategic Significance, Revision 4," dated October 1991 (letter dated December 20, 1991), and as it may be further revised in accordance with the provisions of 10 CFR 70.32 (e). TR-1.2 Notwithstanding the requirements of 10 CFR 73.24(b), 73.25, 73.26, 73.27, 73.67(e), and 73.72, the licensee may ship SNM up to and exceeding a formula quantity using physical protection measures for SNM of Low Strategic Significance under 10 CFR 73.67(g) when the following conditions are satisfied. This condition is limited to material in transit. Fixed site security requirements remain unchanged. (a) The shipment contains SNM only as a contaminant in low-level waste. (b) The maximum mass of SNM per container is U-235 for every of contiguous non-fissile material.
