SUBJECT: NuStart Bellefonte COL Project - NRC Project No. 740
Standard Technical Report Submittals
AP-TR-NS02, *Reactor Vessel Material Surveillance Program*
AP-TR-NS03, *Equipment Qualification Program*

REFERENCE: Letter from Marilyn Kray to Document Control Desk, same subjects; dated February 16, 2007, and March 2, 2007, respectively

In the referenced letters, NuStart Energy, LLC (NuStart) submitted two AP1000 Standard Combined License Technical Reports: AP-TR-NS02, *Reactor Vessel Material Surveillance Program*, Revision 0, and AP-TR-NS03, *Equipment Qualification Program*, Revision 0. Since that time, NuStart representatives have conferred with the NRC Staff regarding the format and content of the subject report. NuStart concurs with the Staff that these two reports are not necessary to facilitate closure of the associated Combined License (COL) Information Items. Accordingly, NuStart hereby withdraws the subject reports.
