### Local Area Personal Income

For [help and instructions](#), [downloadable files](#), and other information please read the notes [below](#).

#### Step 1. Select a table

[AMSA](#)—Accelerated MSA personal income and compensation summary tables  
[CA1-3](#)—Personal income, population, per capita personal income  
[CA04](#)—Personal income and employment summary  
[CA05](#)—Personal income and detailed earnings by industry  
[CA06](#)—Compensation by industry  
[CA25](#)—Total employment by industry  
[CA30](#)—Regional economic profiles  
[CA34](#)—Total wages, wage employment, average wage per job  
[CA35](#)—Personal current transfers detail  
[CA45](#)—Farm income and expenses  
[Single Line](#)—Single line of data for all counties (more than 3000 rows returned; please limit years selected to speed process) for all counties

#### Notes:

#### Help:

- ❑ Use the CTRL and/or Shift keys to select multiple areas and years. (In the Local Area Personal Income application multiple areas are not selectable; select one state and proceed from there, or select the "Single Line" option in Step 1.) Press *Display* to display your selection in HTML tables, and *Download* to download a comma-separated-value text file. If you select *Download* a "Save As" dialog box will appear. It is recommended that you specify an output filename with a CSV extension. Some users will have the option to open the downloaded file directly into a spreadsheet application.
- ❑ The greater the number of areas and years selected, the slower the request will be. A submission that requests too much information has the possibility of timing out. If you are displaying information, you will want to consider how large your table will be.
- ❑ To view county-level information first display a State.
- ❑ After displaying a table, you have the option to show one estimate for all counties and MSAs in that State by clicking on the line code next to the

estimate.

### Additional files
