Angie, I need to get with you sometime about the Caldon submittal and their claim of proprietary. They want the whole submittal back and are concerned about our keeping a copy for the allegation files, since it may be subject to FOIA. We agreed, during a phone call, that we would look at it again and let them know what we think may be proprietary and what is not. Also, the reasons for our decision. Are you available this week to discuss?

I do not have a copy!

Gentlemen:

Could you please check you files/folders, etc. to determine whether or not you have a copy of Caldon's March 7th submittal.

If you have a copy, PLEASE give it to me or Drew because staff will be returning/ shredding ALL copies except for the allegation copy.

PLEASE let me know either way!!

Thank You
