Subject: Re: CALDON RESPONSE LETTER TO OCT 20TH MEETING

Bob: As we discussed when you sent the previous version of this letter for concurrence, I have already told Mr. Hastings that we understand his technical concerns, we are in an allegation process, and when that process is complete, we will correct any technical inaccuracies in our SER that may be identified by that process. We have no need to meet with Caldon, nor does the staff desire to meet with them at this point.

I also left you a voicemail message to call me if you want to discuss this further.

Herb

Gentlemen - -

Please take a look at the attached draft response letter to Caldon based on our Oct. 20th meeting with them. Also, it would be preferred to have the name of the person from NRR that will be contacting Caldon to set up the referenced follow on meeting to address Caldon's technical concerns related to the staff's issuance of the SER on the ER-262 report.

If possible, please provide me a name so that I can insert this into the letter.

Thanks,

Bob
