Laura:

Send the combined comments to me so that I know what's going out to PNNL. I'll send them out there.

Thanks

mark

Well I am just about finish and will have it by Monday at the latest. As I told you last week I was in training in this week taking 104P westinghouse technology course. I had to do a lot of study for it and therefore was not able to finish reading the scoping report as planned. But good news is I passed it so I can finish reading the document today. I was up most of the night studying for the test and therefore I plan on taking some leave to go home and sleep and then finish reading the report. I am sorry for the delay, I did not think the course would be so involved and I would be able to work on it soem this week but it turned out to be not the case. If I finish it today I will email your corrections and mine out to PNNL from home. Who should I email it to?

Laura

Laura:

What's happening with the review of the Vogtle scoping report? I would like to get our comments to PNNL as soon as possible so they can send us a clean version that i can ship up to OGC for review. Let me know...
