RE: NPDES Permit Renewal  
Application No. NJ0005550

Dear Mr. Finfrock:

This will acknowledge that a certification that the activity described in the above referenced permit renewal application is consistent with the New Jersey Coastal Management Program - Bay and Ocean Shore Segment was received on October 10, 1979.

In accordance with the Rules on Coastal Resource and Development Policies, specifically N.J.A.C. 7:7E - 5.3.1, the Department of Environmental Protection has determined that this permit renewal is consistent with the Coastal Management Program provided that it conforms with applicable water quality standards as established by DEP's Division of Water Resources. Accordingly, the findings made by the Division of Water Resources pursuant to Section 401 of the Federal Clean Water Act will serve as the final determination of consistency under Section 307 (C)(3)(A) of the Federal Coastal Zone Management Act of 1972. No further action on your part will be required with respect to this determination.

Please note that the State reserves the right granted to it under the Act to object to the conduct of this activity if it is conducted or is having effects which are substantially different than those originally proposed.
