Mark,

Brent, Laura & I attended a meeting called by Christian to talk about SNC's pending LWA-2 application. First, there's going to be a meeting with SNC on the LWA on July 11. Second, some items of note from the discussion:

1. We need to have considered whether the LWA-2 constitutes a change in the scope for NEPA purposes (probably?) and if so, whether renoticing and a supplement to the DEIS would be warranted (not as likely). Whatever we decide should be documented clearly in the EIS.
2. In relation to #1, right now SNC has committed to sending in the LWA-2 application by the end of July. If they make that date, we can probably work it into the DEIS. If not, if it slips, we need to be ready to discuss what our options are and what the impacts to the schedule might be.
3. OGC is also going to look into what happens when the new LWA rule become effective. If there's a "grandfather clause", then SNC could continue under the old rule, if it wishes to. If there isn't a "grandfather clause", or if SNC asks to be considered under the new rule, will we need a separate EIS for the LWA? That's how the new rule is written.

Those were the big items. Christian & company have worked out a plan how they'll handle this in the SER. You can check with him for more info. Also, Jonathan Rund & Bob Weisman were there for OGC.
