Thanks for the prompt response. For package situations, you will use a Form 665P, and make as many copies needed to complete the Document Sections per the number of documents to be processed and packaged. If you have documents that are already in ADAMS that need to be included in the package, the ML#s of those documents should be included on the form as well.

I will have the documents packaged and the package profile title will be "Plant Vogtle Documentation Received from DOE Savannah River Site". Docket numbers 50-424, 50-425 and 52-011 were handwritten on the form. PROJ0734 was what I included in the email as this is the docket number for Savannah River. We will only pick up docket 52-011 as you request.

Thanks
Grace

>>> Laura Quinn 07/03/2007 2:16 PM >>>

I was told by Michael and Kenny on the 3rd floor (sorry I cannot remember their last names) that the package form would be okay and that I would not need to fill out a single form for each document. **I NEED these documents in a package.** So whatever you need me to do I will do, but if I have one group telling one thing and another telling me the opposite it is hard for me to know what I need to do. This is to be under docket number 52-011 not 50-424, 50-425 and PROJ0734 (I am not sure where those even came from they were not on the 665 form I filled out.) Please call me if you have any questions
Thanks

Laura,

The Document Processing Center received a bunch of documents submitted under one 665 form, titled, **"Plant Vogtle Documentation Received from DOE Savannah River Site"**, for processing into ADAMS as Non-Publicly Available. We have been directed to process the documents as stand-alone documents following normal profiling standards. The documents will have their own individual titles based on information on the document.

Normally, stand-alone documents submitted under Form 665S that are added to ADAMS should each have its own 665 form filled out completely, and documents submitted under Form 665P to be packaged should have each Document section of the 665P completely filled out.

The DPC will complete processing of the documents as individual stand-alone documents that will not be packaged, set the Availability/Sensitivity as Non-Publicly/Non-Sensitive, and include docket numbers 50-424, 50-425 and PROJ0734 in the profiles. I noticed that you included docket 52-011 as well. Do you want this docket number picked up?

If you have any questions, please let me know.

Thank you,
Grace Canty
DPC Profiling Manager
