Watts Bar Unit 1

Docket No. 50-390
License No. CPPR-91

During an NRC inspection conducted September 18 through October 15, 1992, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C (1992), the violation is listed below:

10 CFR 50, Appendix B, Criterion V, Instructions, Procedures, and Drawings, requires that activities affecting quality shall be prescribed by documented instructions, procedures, or drawings, of a type appropriate to the circumstances and shall be accomplished in accordance with these instructions, procedures, or drawings.

Startup Manual Procedures (SMP)-3.0, "Joint Test Group (JTG) Charter," Revision 2, requires that the JTG Chairman/Alternate distribute the agenda material to each JTG member before the meeting.

Contrary to the above, on September 24, 1992, agenda material was distributed to each JTG member as they entered the meeting location. The inspector in attendance observed that the JTG members were not familiar with the agenda material and did not appear prepared to discuss the material.

This is a Severity Level IV violation (Supplement II).
