Gentlemen:

In the Matter of the Application of)
Tennessee Valley Authority)

Docket Nos. 50-390
50-391

WATTS BAR NUCLEAR PLANT (WBN) - COMMITMENT IDENTIFIED IN RESPONSE TO SEVERITY
LEVEL IV VIOLATION 390, 391/92-34-02

This letter provides an extension to a commitment identified in TVA's
response to Violation 390, 391/92-34-02. That response was submitted to NRC
December 22, 1992.

In the corrective steps taken to avoid further violations, TVA stated that
the Plant Access Section will be staffed with a supervisor to ensure that the
elements of the Plant Access program are properly implemented. Completion
of this commitment was delayed by TVA's initiative to reevaluate plant
staffing levels, based on the recommendations of the Institute of Nuclear
Power Operations (INPO). To date, TVA has posted the supervisory position,
and the vacancy announcement has expired. TVA anticipates that selection for
this position and implementation will occur on or before August 1, 1993.

If you have any questions, please telephone John Vorees at (615) 365-8819.

Very truly yours,

William J. Museler
